

```
import java.util.*;

public class Main {
    public static void main(String[] args) {
        Scanner sc=new Scanner(System.in);
        int a= sc.nextInt();
        int b= sc.nextInt();
        if(a>b){
            System.out.println(a);
        }else{
            System.out.println(b);
        }
    }
}
```
